Subject: Egret Aviation Co., Ltd – Letter of Design Approval for In-Flight Galley Carts and Containers under Technical Standard Order C175

Reference: CAAC’s E-mail Responses (Mr. GUO Yonggang) dated February 28, 2019

Dear Mr. Zhang Sen:

This is in reply to Egret Aviation Co., Ltd’s application letter dated January 6, 2019 for Technical Standard Order (TSO) design approval. We acknowledge our receipt of the Civil Aviation Administration of China’s (CAAC) letter dated January 18, 2019, stating that the article complies with the requirements of TSO-C175 and that CAAC assumes responsibility for oversight of the production of the article. We accept the CAAC’s statement within the CAAC’s letter dated January 18, 2019 and Egret Aviation Co., Ltd’s statement dated November 2, 2018, certifying pursuant to Title 14, Code of Federal Regulations (14 CFR) Section 21.621, that the In-Flight Galleys Carts and Containers listed below complies with the requirements of TSO-C175 and 14 CFR part 21, subpart O.

Based on the CAAC’s certifying statement, we accept Egret Aviation Co., Ltd TSO design approval to include the In-Flight Galleys Carts and Containers listed below for manufacture at Egret Aviation Co., Ltd, located at 71 Jiangpu Road, Suzhou, Jiangsu 215126, China.

Model Number	Part Number	Description
TF0001	TF0001-A()()	Full Size Cart
TH0003	TH0003-A()()	Half Size Cart
TF0011	TF0011-A()()	Full Size Waste Cart
TH0007	TH0007-A()()	Half Size Waste Cart
CH0001	CH0001-A()()	Standard Container

This letter of TSO design approval (LODA), together with the CAAC Certificate of Airworthiness for Export, authorizes Egret Aviation Co., Ltd to identify the In-Flight Galleys Carts and Containers with the TSO marking requirements described in 14 CFR § 45.15(b) and in TSO-C175. We issue the LODA in accordance with 14 CFR § 21.621 governing issuance of TSO design approval for import articles. Each item must be accompanied by a certificate of airworthiness for export issued by the CAAC or a duly authorized designee/organization (14 CFR § 21.502).

Egret Aviation Co., Ltd must furnish the following statement to the original owner or installer of each article or multiple articles if furnished to one source:

The conditions and tests for TSO approval of this article are minimum performance standards. Those installing this article either on or within a specific type or class of aircraft must determine that the aircraft installation conditions are within the TSO standards, which include any accepted integrated non-TSO function standards. TSO articles and any accepted integrated non-TSO function(s) must have separate approval for installation in an aircraft. The article may be installed only according to 14 CFR part 43 or the applicable airworthiness requirements.

This LODA, issued pursuant to 14 CFR § 21.621, is effective until surrendered, withdrawn or otherwise terminated by the FAA under the provisions of 14 CFR § 21.613. You, as the holder of this LODA, may not transfer it as stated in 14 CFR § 21.614. The CAAC airworthiness certification and production surveillance is essential in establishing and maintaining that this article meets TSO-C175. With notice, we may withdraw this LODA if we find articles are not in compliance with the applicable TSO pursuant to 14 CFR § 21.2.

Without further FAA approval, we do not allow Egret Aviation Co., Ltd to mark articles if the company's name, address, or ownership changes. Egret Aviation Co., Ltd must notify the FAA through the CAAC of proposed company name, address, or ownership changes.

Please note that technical data the FAA retains may be subject to the Freedom of Information Act requests. This office will notify Egret Aviation Co., Ltd of any request(s) pertaining to their data and give them the opportunity to protect the data from public disclosure.

If you have any questions, please feel free to have your staff contact Ms. Myra Kuck, Project Manager, by telephone at 1-562-627-5316, by e-mail at Myra.J.Kuck@faa.gov, or by facsimile at 1-562-627-5210.

Sincerely,

Greg DiLibero

Subject: Egret Aviation Co., Ltd – Letter of Design Approval for In-Flight Galley Carts, Containers, and Associated Components under Technical Standard Order (TSO) C175

Dear Mr. Zhang Sen:

This is in reply to Egret Aviation Co., Ltd’s application letter dated April 18, 2019 for Technical Standard Order (TSO) design approval. We acknowledge our receipt of Civil Aviation Administration of China’s (CAAC) letter dated April 30, 2019 stating that the article complies with the requirements of TSO-C175 and that CAAC assumes responsibility for oversight of the production of the article. We accept the CAAC’s statement within the CAAC’s letter April 30, 2019 certifying pursuant to Title 14, Code of Federal Regulations (14 CFR) Section 21.621, that the In-Flight Galley Carts, Containers, and Associated Components listed below complies with the requirements of TSO-C175 and 14 CFR part 21, subpart O.

Based on the CAAC’s certifying statement, we accept Egret Aviation Co., Ltd TSO design approval to include the In-Flight Galley Carts, Containers, and Associated Components listed below for manufacture at Egret Aviation Co., Ltd, located at 71 Jiangpu Road, Suzhou, Jiangsu 215126, China.

Model Number	Part Number	Description
TF0005	TF0005-A()()	Full Size Cart
TF0021	TF0021-A()()	Full Size Cart
TH0004	TH0004-A()()	Half Size Cart
TH0023	TH0023-A()()	Half Size Cart

This letter of TSO design approval (LODA), together with the CAAC Certificate of Airworthiness for Export, authorizes Egret Aviation Co., Ltd to identify the In-Flight Galley Carts, Containers, and Associated Components with the TSO marking requirements described in 14 CFR § 45.15(b) and in TSO-C175. We issue the LODA in accordance with 14 CFR § 21.621 governing issuance of TSO design approval for import articles. Each item must be accompanied by a certificate of airworthiness for export issued by the CAAC or a duly authorized designee/organization (14 CFR § 21.502).

Egret Aviation Co., Ltd must furnish the following statement to the original owner or installer of each article or multiple articles if furnished to one source:

The conditions and tests for TSO approval of this article are minimum performance standards. Those installing this article either on or within a specific type or class of aircraft must determine that the aircraft installation conditions are within the TSO standards, which include any accepted integrated non-TSO function standards.
